

## Fuel distributor

### Criteria:

Identification

Completeness

Mechanical damage

Corrosion

## Fuel distributor

### Criteria:

#### Identification

Part number must be legible

## Fuel distributor

### Criteria:

#### Completeness

Aggregate must be screwed in place

## Fuel distributor

### Criteria:

Mechanical damage

On sealing surface or thread

## Fuel distributor

### Criteria:

#### Corrosion

Advice: if visible that aggregate has been dismantled only recently then corrosion will always be acceptable.
