

Throttle-body injection units (ZEE)

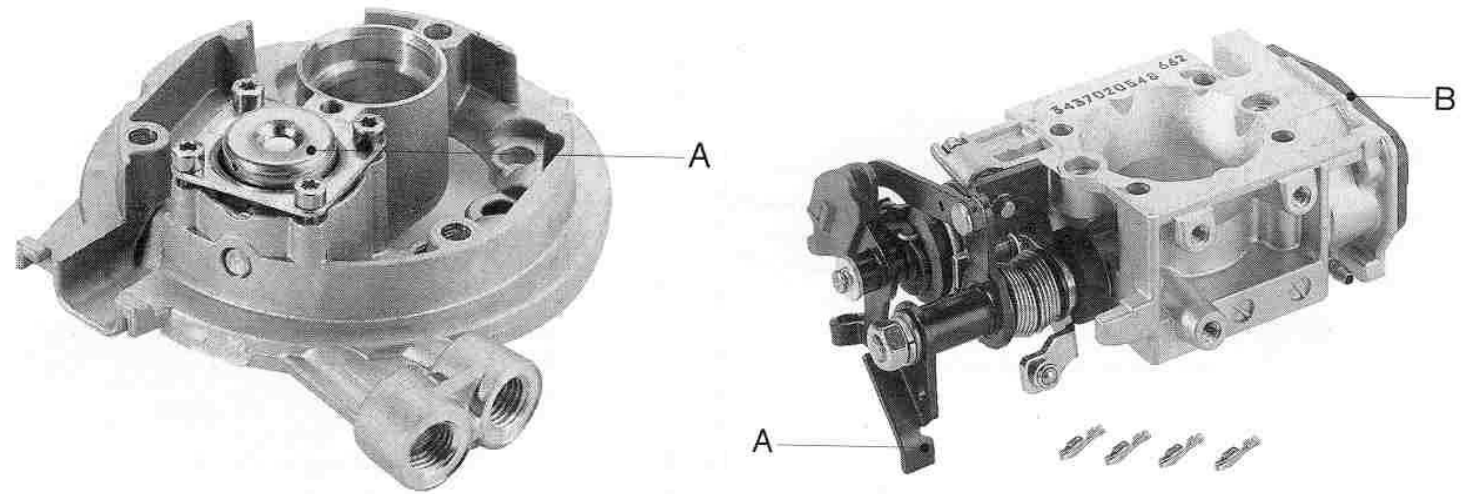

Criteria:

Identification

Completeness

Mechanical damage

Corrosion

Throttle-body injection units (ZEE)

Criteria:

Identification

Part number must be legible

Throttle-body injection units (ZEE)

Criteria:

Completeness

Pressure regulator must be in place (A) and pressure regulator has to be complete;
Throttle-valve potentiometer (B) must be in place

Throttle-body injection units (ZEE)

Criteria:

Mechanical damage

Damage on housing, sealing surface, thread, throttle-valve and setting lever (A) are not acceptable

Throttle-body injection units (ZEE)

Criteria:

Corrosion

Heavy corrosion is not acceptable
